**STATE HOUSE**  
Office of The First Lady  
Republic of Kenya

**O**n March 8th I flagged off the 5th Edition of the Beyond Zero Half Marathon 2020.

I was proud to see so many Kenyans, international visitors, young families, elite runners and expectant mothers brave the early morning cold to participate.

This year's Marathon theme #IWILLRUN underlined the different health intervention areas that we have identified under our Strategic Framework 2018 - 2022.

We advocate for Zero Maternal deaths; Zero Child deaths; Zero New HIV infections; Early screening for Cancer; Zero FGM; Zero Child Marriages; Maintaining a Healthy Lifestyle; and Care of Persons who are differently abled and the Elderly.

But no one could have predicted or prepared us for what would face us just a few days later – the COVID-19 pandemic that would put the whole world on lock-down. The pandemic has impacted our homes, our families and our communities.

Governments the world over have declared this situation a public health emergency that threatens to erode

gains made in protecting the well-being and livelihoods of citizens.

This pandemic has required us to come together as a Nation and to support each other more than ever before.

We have witnessed the spirit of service from the private sector and industry, the UN Family, international and local communities, the media and individual Kenyans in their response to this national health emergency. Most notable is the unprecedented front-line courage demonstrated by our healthcare workers; I acknowledge and salute you all.

While we are sensitive to the fact that this pandemic has affected everyone, and that everyone needs to be protected and supported, our work has taught us that when people and communities are at risk, some people will be more vulnerable than others.

Therefore, to complement the social protection interventions provided by the Government to fight COVID-19, Beyond Zero has committed funds raised from the Beyond Zero Half Marathon 2020 to support marginalized and vulnerable communities, as well as health workers, through provision of

protective clothing, blankets, sanitizers and foodstuffs.

Once this pandemic is over, our plans to forge ahead with the Beyond Zero Medical Safaris will continue. We have also committed to build, refurbish, model and equip specialized health facilities so that they may be more responsive to the needs of the community. In addition, we shall also expand training of health workers through provision of scholarships.

All this is made possible through the support, remarkable energy and dedication of our partners, friends and individual Kenyans.

I thank everyone who supported and participated in the 5th Edition of the Beyond Zero Half Marathon 2020 from the bottom of my heart.

Post COVID-19, I am confident that Kenyans' resilience, spirit and love of community will be one of the benefits that come out of this season. This will help us move forward together.

May God Bless you all.

**HER EXCELLENCY MARGARET KENYATTA,**  
**THE FIRST LADY OF THE REPUBLIC OF KENYA**

# COUNTING THE FRUITS OF BEYOND ZERO HALF MARATHON

The Beyond Zero Half Marathon has been on Kenya's athletics calendar since 2014. The marathon which was unveiled under the auspices of the Beyond Zero Initiative has been instrumental in improving healthcare for thousands of households in Kenya.

Five years ago, when Her Excellency Margaret Kenyatta, the First Lady of the Republic of Kenya set off on this journey, 5,500 Kenyan mothers were dying every year while giving life. In the same breath, more than 100,000 children were dying annually from preventable diseases.

To date, that is no longer the story, as the number of deaths have reduced considerably. Proceeds from the marathon have been used to touch lives, one village at a time. These funds have in the process contributed towards efforts geared towards ensuring zero maternal deaths, zero child deaths, a healthy lifestyle for the elderly, zero new HIV infections and zero child marriages.

Looking back at the Beyond Zero journey, it is in the year 2014 when the engine of the first Beyond Mobile Clinic roared. Then, the key to the

fully-kitted clinic was handed over to the then Taita Taveta County Governor, Mr. John Mruttu. Handing-over of the first mobile clinic in July 2014 was a precursor of things to come. By the year 2016, each of the 47 counties in Kenya was a proud owner of a fully-kitted mobile clinic.

The mobile clinics have been used to deliver essential health services, especially in hard to reach areas. Many families have benefitted from free vaccination, antenatal care and treatment.

As Athletics Kenya, the governing body for the sport of athletics incorporating track, field, marathon, road races and cross countries in Kenya, we are proud to have been part of this journey. The marathon, which also attracts considerable number of corporate sponsors and participants has also been used as a qualifier for global races.

The Beyond Zero Half Marathon has also attracted the participation of international champions.

This year, the marathon winner (21km men category) was the 2019 Amsterdam champion, Mr. Vincent Kipchumba. He was actually using

the race to boost preparations for the London Marathon which was cancelled as a result of the Coronavirus pandemic. The 21km women category was won by Ms. Lydia Njeri, another world champion. She was preparing for the Paris Marathon which was also canceled owing to the same reasons.

Besides being a training ground for both established and upcoming athletes, the marathon plays a major role in the country's efforts towards inclusivity as it incorporates all participants, including children, pregnant mothers, the visually and physically impaired.

As Athletics Kenya, we are proud to be associated with this project, which is spearheaded by the First Lady.

We are committed to continue offering technical support for the marathon, and are therefore looking forward to being part of many more Beyond Zero races, knowing that they transform lives.

**Lt. Gen. (Rtd), Jackson Tuwei**  
**Athletics Kenya President**

Besides being a training ground for both established and upcoming athletes, the marathon plays a major role in the country's efforts towards inclusivity as it incorporates all participants, including children, pregnant mothers, the visually and physically impaired.

# THOUSANDS TURN UP FOR 2020 BEYOND ZERO HALF MARATHON

This year's Beyond Zero Half Marathon was successfully held on the 8th of March; bringing together over 15,000 participants who turned up to run for a worthy cause under #IWillRun.

The Initiative, which is a brainchild of Her Excellency Margaret Kenyatta, the First Lady of the Republic of Kenya, featured different race categories which included; the 21km half marathon, the 10km road race, 5km family fun race and the 2km pregnant walk.

The winners of the elite categories were Vincent Kipchumba and Lydia Njeri for the 21km men and women race respectively while Vincent Yegon and Everlyn Chirchir carried the 10km men and women elite races respectively. The winners of the 21km elite race for both men and women took home KShs 250,000 each while the winners of the 10km elite races pocketed KShs 100,000 each.

In other races, Ronald Wafula was the winner in the men's 21km tricycle event while Jane Kerubo took the honours in the women's event. In the 21km wheelchair event, Caleb Odio was the winner in the men's event while Caroline Wanjira was the lady winner in the category.

Corporate teams participated in the 10km road race category which saw horticulturists Timaflor emerge winners followed by the Kenya

Broadcasting Corporation (KBC) and Minet in second and third place respectively.

Pregnant women were also not left behind as they took part in a 2km walk. Beatrice Chiliswa, Dorcas Moraa and Susan Muthoni completed the podium for the category.

Proceeds from this year's marathon will go towards holding five free Medical Safaris in different counties across the country following the success of five such Medical Safaris that have been held in Narok, Kisumu, West Pokot and Nyandarua Counties with the latest one being held at Uhuru Park in Nairobi in January, 2020.

The Medical Safaris offer a wide range of services to the public including but not limited to issues revolving around maternal and child health.

Speaking during the award ceremony at the Nyayo National Stadium, the First Lady expressed her gratitude to all who supported the Initiative which she says will go a long way in boosting access to health care by Kenyans through the Medical Safaris.

"This event would not be possible if it were not for you and the many other partners who have over the years given us their unwavering support

and cheered us on."

"Our work requires knowledge and awareness sharing, so that all citizens can make better health choices and so that women, men and children can access quality and affordable health care. These marathons have made it possible to contribute to Kenya's health care reforms," she added.

Unlike the previous editions, this year's participants were to select one unique cause to support in the broad subject of maternal and child health which included running in support of the fight against Female Genital Mutilation (FGM), child marriages, maternal and child deaths as well as new HIV infections while also advocating for early screening for cancer, acceptability of children living with disabilities, a healthy lifestyle for the elderly and encouraging men to be active players in addressing maternal health.

The Beyond Zero Half Marathon which was launched in 2014 by the First Lady has a long-term goal of completely eliminating preventable maternal deaths by advocating for improved maternal and child health care.

# TOUCHING LIVES: THE BEYOND ZERO JOURNEY

In 2013, the survival rates for expectant mothers in Kenya was low, and the prevalence of mother to child transmission of HIV was an urgent issue. Then more than 5,500 Kenyans mothers were dying while giving life to the next generation, and more than 100,000 children were dying from preventable diseases.

It is at that point that the idea of the Beyond Zero Initiative, which is a charitable trust, was conceived by Her Excellency Margaret Kenyatta, the First Lady of the Republic of Kenya. In her quest to reduce preventable maternal deaths and infant mortality, the First Lady committed to heighten advocacy

around the health challenge.

She was inspired by concern on the gravity of the numbers of maternal and child deaths, and a realization and knowledge that these deaths were preventable.

Beyond Zero is a call to action for policy prioritization and formulation, increased resource mobilization, improved service delivery and better individual health seeking behaviours and practices.

Through this high level advocacy platform, the First Lady leverages on the convening power to focus on key challenges facing Kenyans and building strategic partnerships that

will address these challenges.

The Beyond Zero Half Marathon has been used to raise funds for the Initiative. At the onset, the funds raised went towards the purchase of 47 fully fitted mobile clinics that were distributed to all counties.

Efforts by the First Lady have borne fruits, as over the years, through collaborative efforts between Beyond Zero, its partners and stakeholders in the health sector, the number of new HIV infections among children fell from 13,000 in 2013 to 6,100 in 2017. On the other hand, the number of mothers delivering without the aid of a skilled worker dropped from 56 percent to 34 percent over the same

time. The number of pregnant women who were attended to by a skilled health worker during delivery doubled from 600,000 to 1.2 million; while the rate of maternal deaths per 100,000 live births dropped from 488 to 362. In addition to the above, the mortality rate for children under five years, per 1,000 live births, dropped from 74 to 52.

The Beyond Zero Initiative has enhanced the profile of Kenya in its efforts to expand access to maternal, newborn and child health; while convening multi-disciplinary stakeholders

for resource mobilization. Additionally, the Initiative has mobilized communities and created awareness for accelerated reduction of HIV, maternal, newborn and child deaths.

In 2018, Beyond Zero launched the 2nd Strategic Framework expanding and deepening its work around neglected issues around maternal and child health. The Framework covers nine intervention areas focusing on promoting access to quality maternal and neonatal healthcare services, advocating for repair and reintegration of women living

with obstetric fistula, promoting good nutrition for all children and advocating for social inclusion of children living with disability for their equal access to health and education services. It also focuses on increasing engagement of men in the reproductive health for their own benefit and that of their families.

Looking at the steps taken so far, many lives have been transformed, and impacted. In the near future, many more families are set to benefit from quality healthcare services.

# BEYOND ZERO HOLDS FIVE SUCCESSFUL MEDICAL SAFARIS

The successful Medical Safaris have been held in Nairobi, Narok, Kisumu, West Pokot and Nyandarua, with more than 30,000 households benefitting from free medical screening and specialized services.

**S**ince 2018, Her Excellency Margaret Kenyatta, the First Lady of the Republic of Kenya has led the Beyond Zero Initiative in holding five Medical Safaris across the country.

The First Lady is the patron of the Beyond Zero Initiative which was launched in 2014.

Medical Safaris are large-scale outreach programs conducted in collaboration with the County Governments and over 15 medical service providers.

The successful Medical Safaris have been held in Nairobi, Narok, Kisumu, West Pokot and Nyandarua, with more than 30,000 households benefitting from free medical screening and specialized services.

Services provided during the Medical Safaris included free cardiovascular and cancer screening, screening for eye care clinic for elderly persons, orthopedic clinic for children, assessment and

registration for children with disabilities, check-up for pregnant mothers, screening for hearing loss and oral health screening.

Additional services which were provided at the Medical Safari included diabetes and hypertension screening, HIV counselling and testing, immunization, Linda mama registration for all pregnant mothers, National Hospital Insurance Fund (NHIF) membership registration and blood donation.

While launching the 5th Medical Safari in Nairobi on January 23rd, 2020, the First Lady announced plans to hold four more Medical Safaris this year targeting at least 50,000 households with free and quality healthcare.

The idea of the Beyond Zero Initiative, which was conceived in 2013 by the First Lady, is committed to heighten advocacy around reducing preventable maternal and child deaths.

## KIBIBI FROM RIRUTA VILLAGE GETS A FREE PAIR OF READING GLASSES

On January 24<sup>th</sup>, 2020 Ms. Kibibi Nyambura was one of the beneficiaries who attended the free Beyond Zero Medical Safari held at Uhuru Park grounds in Nairobi.

She came to the Safari for an eye check-up, as she could not see or read properly.

After a series of eye tests conducted by VisionSpring, one of the partner organizations at the Medical Safari, her ailment was identified - she needed some medication and a pair of glasses to correct her eye condition.

"I have been given eye medication and spectacles. Now I am able to see properly and read too. Before I could not. I am so happy with the

assistance that I have received today," she said.

Nyambura noted that there were several tests being offered for free including cancer and blood pressure.

She expressed gratitude to Her Excellency, Margaret Kenyatta the First Lady of the Republic of Kenya, Margaret Kenyatta, urging her to continue with the good work.

"We are solidly behind you, keep up with the good work, she said.

During the Medical Safari in Nairobi, more than 2,810 individuals benefited from free comprehensive eye screening. More than 1,400 patients received free reading glasses, and 74 cataract cases were detected.

**I have been given eye medication and spectacles. Now I am able to see properly and read too. Before I could not. I am so happy with the assistance that I have received today,"**

- Kibibi Nyambura

## BOY GETS FREE HEARING AID FROM STARKEY HEARING FOUNDATION

**O**n January 23<sup>rd</sup>, 2020 a mother brought her young son, Jonathan Kamau\* for hearing screening at the Beyond Zero Medical Safari in Nairobi's Uhuru Park.

She could not hide her joy when the boy was fitted with a hearing aid from Starkey Hearing Foundation.

"My kid who had hearing problems has been assisted for free and I am so happy about that. I urge anyone with a kid who has hearing problems to also bring them to these Medical Safaris when they happen and they will be assisted like I have," she beamed with joy.

Starkey Hearing Foundation was at the grounds to offer hearing screening for all.

The mother further expressed her gratitude to Starkey Hearing Foundation and Beyond Zero for giving her son the chance to be able to hear again. He suffered hearing loss after an illness.

So far, more than 800 individuals have benefited from free hearing screenings conducted in Kisumu, Nyandarua and Nairobi Counties.

# HUNDREDS RECEIVE FREE CANCER SCREENING

Cancer screening was one of the most sought after services during the 5th Edition of Beyond Zero Medical Safari that took place between January 22nd and 24th at Nairobi's Uhuru Park.

The Medical Safari coincided with Kenya's national cervical cancer awareness week.

During the Safari, 1,674 individuals were screened for cervical and prostate cancer. Partners offering the free screening services were Beth Mugo Cancer Foundation, Africa Cancer Foundation, Women4Cancer, Kenyatta National Hospital and County Government of Nairobi.

At the Medical Safari, 17 cases of suspicious cervical cancer were detected and 11 patients were treated using thermocoagulation. According to Africa Cancer Foundation Programme Manager, Ms Wairimu Mwaura, thermocoagulation is a technology approved by the World Health

Organization (WHO) for usage in low and middle income countries. It is a one minute procedure which uses heat of about 100 degrees to treat lesions.

The Beyond Zero Initiative creates awareness about early cancer screening and also encourages regular cancer checks.

Globally, millions of patients are fighting cancer. Early cancer screening is an important aspect in the treatment of the disease.

Cervical cancer has been termed to be one of the major challenges in achieving maternal health. Early cancer screening is one of the causes participants in the Beyond Zero 2020 Half Marathon can choose to run for.

# MORE THAN 1,200 DIFFERENTLY ABLED PERSONS REGISTERED

The Beyond Zero Initiative, working in conjunction with the National Council for Persons with Disabilities (NCPWD) has facilitated assessment and registration of 1,205 differently abled persons.

These registrations have been carried out in five counties where the Initiative has so far conducted Medical Safaris. These counties are; Nairobi, Kisumu, West Pokot, Nyandarua and Narok.

Assessment and registration of persons living with disabilities resonates with efforts across the globe geared towards promoting the wellbeing of vulnerable groups, including individuals who are differently abled.

These efforts are aimed towards giving differently abled individuals opportunities to participate effectively in all spheres of life, in the process entrenching inclusivity.

During the Medical Safari held in Nairobi's Uhuru Park, the Beyond Zero team caught up with one of the beneficiaries.

An elated Peter Njoroge\* could not hide his joy. In a brief interview, he said he was involved in an accident

which led to the loss of his leg.

"I came here because of my disability. I broke my leg about five years ago and until now I am still suffering. I just came here today to have my leg scanned. Following the accident, I have not been able to continue working as I used to before."

He said he had been served well, and was waiting for a physiotherapist to look through photos of the scanned leg and guide him on the next steps.

"I urge Her Excellency the First Lady, Margaret Kenyatta to continue with this Initiative because it is helping many people who are not able to raise the monies required in hospitals to get treated. Under this program, one gets treated for free and I am so happy about that, and also hope for the best," he said with finality.

# THE FIGHT AGAINST FISTULA IS TAKING SHAPE IN KENYA

Female Genital Fistula (FGF) is a condition that many women in Kenya have suffered from, some in silence. It brings about shame and deprives women of their dignity. According to Amref Health Africa, fistula mostly occurs as a result of prolonged obstructed labour, coupled with lack of skilled medical care. It usually leads to a continuous leakage of urine and/or stool and loss of control of bowel movements.

The organization further states that in Kenya, it is estimated that for every 1,000 births, two women get fistula, resulting in 2,400 cases every year. Sadly, the capacity to provide fistula repair services is less than 50 per cent of the new cases every year. Kenya is therefore in great need of medical personnel trained in FGF prevention, care and treatment. Beyond Zero Initiative is currently

working with Amref Health Africa to screen for FGF and also conduct surgical repairs for affected women.

The screening and repairs are conducted under the Beyond Zero Medical Safaris, four of which have been conducted in Nairobi, Narok, West Pokot and Kisumu

Under the Initiative a total of 865 women have so far been screened in Kisumu, Narok, West Pokot and Nairobi counties. Through the initiative, there have been 193 free surgical repairs conducted on women and girls in the four counties.

Fistulas affect women and girls in poorer regions of the country who do not have access to professional childbirth resources. In communities where early child marriages and female genital mutilation is practiced, the condition is rampant mostly due to complications that

arise during childbirth.

Many fistulas are cured with a single surgery. In a proper medical setting with a trained provider and adequate supplies, surgeries can yield success rates of over 90%.

The biggest challenge for women is finding a health facility that has a surgeon trained in fistula repair or care. Most hospitals in areas with high fistula rates have very few medical professionals who know the specifics of fistula repair. Due to this, most women end up staying for long periods with the condition.

The Medical Safaris have been instrumental in bridging this gap by bringing healthcare closer to people and to ensure that many people who would have ideally not had the chance for treatment benefit from the same.

# PROUDLY FIVE: FIRST LADY LAUNCHES THE BEYOND ZERO HALF MARATHON

**O**n December 3rd, 2019, Her Excellency Margaret Kenyatta, First Lady of the Republic of Kenya launched the 5th Edition of the Beyond Zero Half Marathon at State House, Nairobi.

During the launch, which was attended by partners and representatives from various organizations, the First Lady restated her commitment to continue advocating for initiatives geared towards improving provision of quality healthcare to women and children.

She also announced the expansion of the Beyond Zero Medical Scholarship programme from 100 to 200 beneficiaries in 2020. Further, she said the funds raised through the marathon will be used to refurbish health facilities, and also kick-start the process of setting up a specialized Beyond Zero referral health facility.

"Through the funds raised we will continue to be responsive to the needs of communities by rebuilding or refurbishing and equipping specialized health units to serve communities in marginalized areas," the First Lady said.

On the same day, the First Lady and her team of trainers who included world marathon record holder Eliud

Kipchoge and his wife Grace started her training for the run, which took place on March 8th, 2020.

Among those who attended the launch at State House were Mrs. Ida Odinga, Sports CS Amina Mohammed, Chief of Staff in the Office of the First Lady Constance Gakonyo, Eliud Kipchoge and National Aids Control Council CEO Dr Nduku Kilonzo.

"Our work is not finished. The worrying trend of increased cancer hurts our families, hurts our communities, hurts our nation. In addition, increase of new adolescent HIV infections threatens to disrupt Kenya's opportunity to reap from our demographic dividend from a youthful generation," Her Excellency Margaret Kenyatta said.

The First Lady expressed gratitude to marathon stakeholders including donors for their continued support, adding that the Beyond Zero Mobile Clinics and the Beyond Zero Medical Safaris had transformed the lives of millions of Kenyans.

The Beyond Zero Medical Safaris which were unveiled in 2018 have benefitted more than 30,000 households, many of them receiving free medical services. Other services offered at the Medical Safaris are advocacy and awareness.

The launch of the half marathon coincided with celebrations to mark the International Day of Persons with Disabilities (IDPD). This day is observed annually to promote the rights and wellbeing of persons with disabilities.

The theme of the 2019 IDPD was "Promoting the participation of persons living with disabilities and their leadership: taking action on the 2030 Development Agenda."

The First Lady noted that the theme resonated with the Beyond Zero agenda of leaving no one behind in access to quality health services.

During the launch, there were eminent panellists who discussed ways and means in which the Beyond Zero Initiative had marshalled the private and public sector to focus on improving healthcare for both women and children.

The panellists included United Nations Resident Coordinator Siddharth Charterjee, Regional CEO of Jubilee Holdings Dr. Julius Kipngetich, Ford Foundation Director for East Africa Maurice Makoloo, Acorn Special Tutorials Centre Director Eva Naputuni Nyoike, Director HSS at Amref Health Africa Dr. Elizabeth Wala and CEO of NACC Dr. Nduku Kilonzo.

# FIRST LADY

# FLAGS OFF 100 MEN RUN IN KARURA FOREST, NAIROBI

On February 14<sup>th</sup>, 2020, Her Excellency Margaret Kenyatta, the First Lady of the Republic of Kenya flagged off the inaugural 100-men run at Nairobi's Karura Forest.

**T**

he men-only run which was held for the first time ever since inception of the Beyond Zero Initiative took place under the tagline 'I Will Run For Her'. It was a forerunner for the Beyond Zero Half Marathon set for Sunday, March 8th, 2020.

The event which took place on Valentine's Day gave the men opportunity to show support and engage around issues of maternal and child health that affect their mothers, wives, daughters, sisters and the girl-child.

Participants during the 5 kilometre-run, included the following Cabinet Secretaries, Mr. Keriako Tobiko (Ministry

of Environment) and Attorney General, Mr. Paul Kariuki Kihara.

Also present was Jubilee Insurance Group CEO, Dr. Julius Kipngetch, Reelforge CEO, Mr. Sammy Lusiola, Athletics Kenya President, Mr. Jackson Tuwei, Athletics Kenya Chairman, Mr. Barnabas Korir, Ford foundation East Africa Representative, Mr. Maurice Makoloo and Media Max Acting CEO, Mr. Ken Ngaruiya, among others.

The run bolstered efforts by the Beyond Zero's Strategic Framework which incorporates the entire life cycle including expectant mothers, infants, adolescents, youth, men and the elderly.

# 100 MEN RUN IN KARURA FOREST, NAIROBI

# OUR PARTNERS SUPPORT TOWARDS BEYOND ZERO HALF MARATHON

Over the years, the Beyond Zero Initiative has been supported by generous contribution from sponsors and well-wishers.

**O**n February 18th and 5th March, 2020, the First Lady, Margaret Kenyatta received donations from various organizations in support of the Beyond Zero Half Marathon. The corporate and individuals who attended the events at State House, Nairobi declared their support for the Beyond Zero Initiative saying the intervention has helped improve maternal and child health in

the country.

On her part, the First Lady expressed her gratitude for the sponsorship and reiterated her commitment to continue leading efforts to enhance the delivery of maternal and child health in the country.

She said Beyond Zero wouldn't have achieved the milestones it has made without the contribution of well-wishers.

"I just want to say thank you so much once again, you always support this cause from which you have seen results on the ground and I just want to thank you from the bottom of my heart," the First Lady said.

Corporates that presented their sponsorships included Banks, Industry, Media, Telecommunications, Private Foundations, among others.

# Beyond Zero Initiative donates food and non-food items to cushion vulnerable groups during COVID-19 pandemic

Several vulnerable groups have benefitted from donations of food and non-food items and medical supplies over the months of April and May as part of the Beyond Zero Initiative's contribution in support of the national response against the COVID-19 pandemic.

The donation to vulnerable group's prioritised senior citizens, people living with disability, mothers and children from poor and difficult

circumstances in line with the Beyond Zero's Strategic Framework 2018 to 2022, founded by Her Excellency Margaret Kenyatta. The Framework focuses on, among other interventions, improving access to comprehensive health care and social protection for the targeted groups.

The donation began on April 24 at the Nyumba ya Wazee old people's home in Kasarani which received

bales of uji mix flour, bags of sugar, boxes of long life milk, beans, gloves, diapers, face masks, hand sanitizers, gallons of multipurpose disinfectants and blankets.

The Nyumba ya Wazee home run by nuns from the Catholic Church's Little Sisters of the Poor caters for senior citizens, both men and women, with the eldest being 106 while the youngest is 78 years old.

The Beyond Zero team led by Ms Jane Kiragu and Ms Eva Maina from the Office of the First Lady was back on the road on April 27 to support St Joseph The Worker, a health centre that serves the low income communities in the outskirts of Nairobi City.

The donation received by Sister Magdalene Mwaura and Father Melchior Marandu included food items, and medical supplies to protect the healthcentre workers including gallons of multipurpose disinfectant, bottles of sanitizers, personal protective equipment (PPE) kits, face masks and an assortment of medical supplies including drugs, syringes and cotton wool.

In her concern for children, the First Lady of Kenya continues to support children facing challenging circumstances. The next donation was to Nyumbani Children's home which cares for HIV positive orphans. The Home touches the lives and hearts of over 14,220 children every year, and offers outreach support to our elderly and vulnerable people.

The donation to Nyumbani Children's home was presented to Sister Mary

Owen on April 28 by Beyond Zero Coordinator Ms Angella Langat who was accompanied by Ms Vivianne Ngugi and Ms Eva Maina, both from the Office of the First Lady.

Sister Mary Owen said the donation has come at the right time and will boost her institution's efforts to provide a dignified life to the vulnerable children.

"I want to thank Her Excellency First Lady Margaret Kenyatta and Beyond Zero for the food support during this time of the COVID-19 pandemic. We are not only grateful for the food donation but also for knowing that you think about us and the children we care for.

"We want to thank you from the bottom of our hearts. May the Almighty God bless you all," Sister Mary Owen said.

On April 30, the Beyond Zero Initiative put a smile on the faces of children at Imani Rehabilitation Centre in Nairobi through a donation of food and non-food items. Established in 1990, the Imani Rehabilitation Agency has grown and now has seven projects caring for over 300 vulnerable children-

some of them as young as a day old - around the country.

Children living with disabilities and their caregivers are facing unique challenges during this COVID-19 pandemic period with their therapy, care and treatment being disrupted.

On May 9, Beyond Zero presented a donation to nine charity and community based organizations that cater for children with special needs and other vulnerable groups which included bales of uji mix, maize flour and boxes of long life milk. Other donated items were sanitizers, face masks, salt, bags of sugar, rice and beans, packets of tea leaves, and cartons of cooking oil.

The nine organizations that received the donation included the hosts Acorn Special Tutorials Centre, Little Rock Centre, Crossing Bridges Ngong Branch and Sweet Aroma which were represented by their directors Ms Eva Naputuni Nyoike, Ms Saturina Orumoi, Ms Lilly Oyare and Ms Grace Maina respectively.

Other beneficiaries included Bringing Hope Charity International, Special Education Professionals, Crossing Bridges Naivasha Branch,

Nongera Education Centre and Nyumba Kumi Gichungo. Speaking after receiving the donation, Acorn Special Tutorials

Centre Director Eva Naputuni Nyoike thanked First Lady Margaret Kenyatta and the Beyond Zero team saying the items will not only

help the children with special needs at Acorn Special Tutorials Centre but also other vulnerable people in the centre's neighbourhood.

# Equity Afia - Your Affordable, Caring Health Partner

**E**quity Afia was founded in 2015 under Equity Group Foundation's (EGF) Health Pillar, as a franchise of medical outpatient centres to respond to the growing need for affordable and accessible quality healthcare for Kenyans. Its aim is to bring new strategies to provider reform, customer reform and insurance reform.

In Kenya and across the globe, medical costs continue to consume a large share of the household budget. Locally and regionally, the cost of treatment can be too high limiting quality services to people who need them most. To help solve this problem, the Equity Afia medical centres have adopted strategies to enhance access to affordable treatment at the facilities.

For the franchise, access is viewed as two-fold, that is, through the expansion of its medical centres network and by offering affordable healthcare services to citizens everywhere. Equity Afia's maiden clinic was set up in Ongata Rongai, and has since scaled its operation. The network has opened an additional 11 centres across various towns and counties in Kenya, which have so far served over 160,000 patients.

The Equity Afia care model was designed in such a way that all services offered

at the clinics are standardized across the board. This means that whether one visits the Biashara Street Clinic in Nairobi, the Nyeri Clinic or the Nakuru Clinic, they will receive the same level of high quality care and at the same affordable cost. Through digitization, the clinics are also able to share information, making it easy for patients to access care records regardless of where they were first registered.

The centres are NHIF accredited, and aligned with the recommendations of the World Health Organization's values and guidelines. This allows both the employed and the self-employed to access medical outpatient treatment under national insurance cover, as stipulated by NHIF's outpatient benefit scheme. Additionally, the clinics have standardized their fees to charge Ksh 500 as the medical consultation fee and at an affordable cost, patients can go through the full evaluation, diagnosis and prescriptive cycle. The clinics have also partnered with various insurance service providers in Kenya, allowing acceptability across diverse consumers, businesses and communities.

These diverse payment options have ensured that most Kenyans can enjoy quality services at affordable costs and

**From left: Ministry of Health Chief Clinical Officer Manasseh Bocha, Equity Afia Biashara Street Medical Officer-In-Charge Dr. Benson Chuma and Equity Afia General Manager Gilbert Muriithi listen as Equity Afia Biashara Street Laboratory Technologist Caroline Githongo showcases the clinic's ultra-modern equipment during the official launch of the 12<sup>th</sup> Equity Afia Clinic Franchise.**

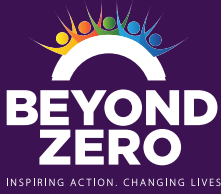

the model caters to the needs of a wide variety of demographics in society. Those who fully rely on Out-of-Pocket payments have access to an alternative source of cost friendly, quality and affordable healthcare.

The Equity Afia clinics are managed by dynamic 'medical doctor entrepreneurs' who are graduates of the Equity Leaders Program (ELP), offering comprehensive outpatient medical services including, doctor consultations, nursing care and dental services, well-baby clinics, specialist clinics and diagnostic services through ultra-modern laboratories.

Equity Group offers high level support for the medical centre network in the form of financing, training insurance and other products and services for doctors wishing to set up such clinics on their own.

# Transforming Lives

## BEYOND ZERO 2020 HALF MARATHON

8TH MARCH, 2020 NYAYO STADIUM

KPC fully supports and associates with the ideals of the Beyond Zero Campaign which seeks to provide healthcare programmes that impact positively on the delivery of medical services to the vulnerable groups especially mothers and children.

Under the Big Four agenda, Universal Health Coverage is one of Kenya Government's national goals aimed at ensuring that all Kenyans have access to affordable health services. The Beyond Zero Campaign supplements this noble effort.

The Half Marathon will continue to build on the sense of community and the spirit of togetherness for all participants which will ultimately improve on physical fitness, good health and productivity in line with our mission of transforming lives.

## CAUTION AGAINST ILLEGAL CONNECTIONS AND ELECTRICITY THEFT

We wish to draw the attention of our customers and the general public to the fact that it is a criminal offence to steal electricity, tamper with meters, or engage in illegal connections and vandalism.

The Energy Act 2019 spells out the following penalties and sentences for those found guilty of the offences:

| Offence   | Penalties/Sentences   |
|---|---|
| 1. Illegal connections and electricity theft                            | <ul style="list-style-type: none"> <li>• <b>KShs.1,000,000</b> fine or one year's imprisonment or both</li> <li>• Disconnection of power supply</li> </ul>  |
| 2. Breaking or tampering with electricity meters and seals              | <ul style="list-style-type: none"> <li>• <b>KShs.50,000</b> fine or two years' imprisonment or both</li> <li>• Disconnection of power supply</li> </ul>   |
| 3. Vandalism, theft, and damage of streetlights and power installations | <ul style="list-style-type: none"> <li>• <b>KShs.5,000,000</b> fine or five years' imprisonment or both</li> <li>• Confiscation of vehicles used to transport vandalised materials and equipment</li> <li>• Recovery to compensate for losses occasioned</li> </ul> |

We are working closely with investigating agencies to unmask criminals involved in illegal activities with the aim of prosecuting them in court.

To get electricity connection, please visit any of our offices countrywide for guidance and support. Do not make any payments to individuals purporting to be staff or contractors of Kenya Power. All payments or purchases should be made, and receipts for the same obtained, at any of Kenya Power banking halls across the country or through our appointed payments agents or approved electronic channels as listed on our website, [www.kplc.co.ke](http://www.kplc.co.ke)

For any enquiries or to report cases of electricity theft and fraudulent activities, please call **95551**.

## KENYA SCHOOL OF GOVERNMENT

Empowering the Public Service

The Kenya School of Government was founded under an Act of Parliament with mandate to transform the Public Service through human resource capacity development.

KSG emphasises practical application of the knowledge gained and has therefore established a faculty of course facilitators with strong academic foundation and long-standing practical experience in public sector leadership and management.

### Our Services

- 1) **Training:** The School offers training aimed at developing professional competencies, public service values and capabilities for research-based policymaking.
- 2) **Consultancy:** The School provides expert consultancy services in organizational re-engineering for higher levels of innovation, adaptability and responsiveness in delivery of public services.
- 3) **Research & Advisory Services:** The School has a mandate to provide research and advisory services designed for evidenced-based public policy making.

### Our Facilities:-

### Our Campuses:

- KSG Lower Kabete
- KSG Baringo
- KSG eLearning & Development Institute
- KSG Embu
- KSG Matuga
- KSG Mombasa

**Thika  
Cloth Mills  
Limited**

## Bringing Textiles Home

**H**aving weathered a storm of competition from overseas, Kenya's Thika Cloth Mills is investing in modern techniques to help the national industry stand on its own two feet.

"At the age of 24 my sister and I visited the factory one afternoon to find all the workers standing outside. They hadn't been paid their wages. My father explained that the factory was going through difficult times and that the family was restructuring. He told the workers that the future looked grim and they could either go and look for green pastures or get back to work and hope for the best."

"To our surprise every worker went back into the factory. I knew how much this meant to them, and I made a promise to fight for our people and make this wrong right."

This is Kenya, 1998, just outside of Nairobi – a textile trade in crisis. Huge influxes of cut-price clothing from the manufacturing powerhouses of Asia had penetrated the local market, and decades-old local businesses were under threat.

The opening words are those of Tejal Dodhia, now Managing Director of rejuvenated family enterprise, Thika Cloth Mills.

In order to save her family business in the late 90s, the MD knew a departure from tradition

was necessary. Thika Cloth Mills had to adapt to survive.

"Today we are leaders in the uniform sector, supplying many school distributors, corporates and almost all security uniform materials. Our survival is built on consistent, high quality fabrics, focusing on customer needs and fast deliveries."

Employee numbers have recovered to 650, dedicated and skilled staff who produce goods for around 400 customers across Kenya, from large manufacturers to small-scale tailoring outfits. Thika Cloth Mills also supplies companies whose products reach further afield, both in Africa and to the likes of Europe and the US.

Having appointed a new president in 2012 who aligned with her vision, the MD joined the Kenya Association of Manufacturers (KAM) and became a loyal proponent of the Buy Kenya Build Kenya campaign.

"We would like to thank the H.E the President, The Ministry Of Industry and Kenya Association of Manufacturers for their support which has enabled the company to fast track modernisation," Dodhia adds.

"It is our vision to get back to 2,000 employees and buy cotton locally, creating jobs for many Kenyans. We want to provide quality products that can be converted to garments and fashion items, further creating jobs in this sector."

Imarika is a Swahili word for "become stable" and this is the promise the Sacco makes to its members; that we shall work with them to become stable and grow steadily to prosperity economically.

Imarika SACCO has an active membership of about 80,000 with its head office in KILIFI town, Kilifi County with Six branches in MALINDI, MTWAPA, MARIAKANI, BAMBA, and GARSEN, UKUNDA in Tana-River County and Kwale County respectively

The membership of the SACCO covers the entire Counties in the Coast Region i.e KILIFI, KWALE, MOMBASA, TANA-RIVER, LAMU, TAITA TAVETA and to some extent beyond in other counties and countries.

Our core objective is to provide a savings avenue to members and advancing loans to them at an affordable rate of interest. In 1998 the SACCO opened its common bond and admitted other categories of membership.

- Today it has three major activities namely:
- BOSA – For all members operating through check off system
  - FOSA – For business people operating through standing orders
  - MSCA – For group members of between 10-15 registered with social services and operating through the group accounts

- Benefits:**
- Guaranteed handsome return
  - Exemplary Customer Service -Short term investment while you plan for your development
  - Safe and secure discount if you need it -Sound Management
  - Partners in business "Together we grow"
  - As a member enjoy other range of benefits from other products and services.

#### IMARIKA NEW PRODUCTS IN AGRIBUSINESS & TECHNOLOGY

Imarika Sacco has introduced new products for its members, the new products come in line with the Sacco mission which is to improve the socio-economic welfare of its members by providing diversified member driven financial products and services.

The new products are:

- Mtandao Loan - Finance New Phones, Tablets, Laptops (Put some photos)
- Ufugaji Loan - Finance -Livestock rearing for agribusiness (chicken, goats, rabbits,bee keeping, cowa) -Maziwa Loan - Finance Dairy ANimals
- Kilimo Biashara Loan - Finance Horticultures
- Mtaji Loan - Finance - Agribusiness equipment and machinery

MEMBERSHIP At Imarika SACCO, We have an open and voluntary membership policy for all ages.

Join us today and be on your way to financial growth.

Our membership comprises of:- SALARIED/ NON SALARIED INDIVIDUALS/ BUSINESSMEN & WOMEN/ GROUPS AS WELL AS INSTITUTIONS

- Copy of your I/D
- Two passport size photos (colored)
- Entrance fee Ksh600

**COMMISSION FOR UNIVERSITY EDUCATION (CUE)**

**Our Vision**  
A Leading Regulator of Quality, Relevant and Sustainable Our University Education Our University Education

**Our Mission**  
To Promote Quality University Education through Regulation, Monitoring Compliance and Policy Advisory to Achieve Global Competitiveness

**Mandate**  
The mandate of the Commission is to ensure maintenance of standards, quality and relevance in all aspects of university education, training and research. This is achieved through execution of the functions of the Commission as stipulated in section 5 (1) of the Act. These functions include:

- Promoting the objectives of university education;
- Setting standards relevant to quality of university education;
- Monitoring and evaluating the state of university education in relation to the national development goals;
- Licensing student recruitment agencies;
- Developing and advising on policy relating to university education; recognizing and equating foreign qualifications;
- Inspecting and accrediting universities and programmes; and promoting quality research and innovation. In the last strategic plan period, the Commission developed Universities Regulations and Universities Standards & Guidelines to enforce quality assurance in universities.

The Commission embraces a peer process of audits and reviews, to mainstream quality assurance practices and promote continuous improvement. In furtherance of its mandate, CUE has provided evidence based policy advisory to government and engaged stakeholders through collaborations and partnerships

KANCO team warming up for the Beyond Zero Half Marathon

KANCO is a premier membership organization of Non-Governmental Organizations with the mission to improve the Health and Well-Being of Communities through Capacity Building and Innovative Leadership. This is achieved through four strategies; policy and advocacy; improving access to health; strengthening KANCO as an institution and developing a strong unified membership and research, learning and innovation.

KANCO engagements in support of the Beyond Zero Campaign Initiative, during the 5th Medical Safari's, Nairobi County Launch

Over the years KANCO has horned operations at the national, regional and global level, with advocacy partnership pushing for access to people centered and sustainable health services, towards the realization of healthy people and empowered communities.

Guided by the vision of healthy people, empowered communities, over time KANCO has evolved to become a premier agency for sensitizing, mobilizing and promoting collaboration among civil society organizations (CSOs) working in the region. On the 8<sup>th</sup> of March KANCO will continue to run towards the realization of a healthy people and empowered communities

## KENYA FILM CLASSIFICATION BOARD

Kenya Film Classification Board is a State regulatory agency mandated by the Films and Stage Plays Act Cap 222 of the laws of Kenya to regulate film and broadcast content at the creation, distribution, possession, broadcast and exhibition levels with the aim of promoting our culture, national values and aspirations as well as to protect children against exposure to harmful content.

Further, the Kenya Information and Communications Act (KICA) mandates the Board to enforce the watershed period (5am-10pm) for free to air TV and radio by ensuring that content aired during this period is suitable for all family viewing (General Exhibition).

The Board also registers Film Agents and issues filming licences to filmmakers. Additionally, it gives film/video regulatory licences to exhibitors and distributors of film content as well as classifies content for age appropriateness before exhibition or broadcasting. **KFCB hotline 0748184499.**

## AN INVITATION TO POTENTIAL STUDENTS TO PURSUE WORLD CLASS QUALIFICATIONS WITH kasneb

kasneb is a professional examinations body with the mandate to offer professional, diploma and certificate qualifications in accountancy, finance, credit, governance and management, information technology and related disciplines. kasneb administers its examinations throughout the East and Central Africa region and in other countries globally.

Currently, kasneb administers four professional examinations, two diploma examinations and one certificate examination leading to the following qualifications:

### 1. Professional Qualifications

**Certified Public Accountants (CPA)**  
Certified Public Accountants are skilled and competent professional accountants, auditors, finance managers, tax consultants and practitioners in public, private sectors and not for profit organisations.

**Certified Secretaries (CS)**  
Certified Secretaries are experts and practitioners in governance, governance audits and compliance, corporate secretarial practice, corporate law, consultancy, business management and administration.

**Certified Investment and Financial Analysts (CIFA)**  
Certified Investment and Financial Analysts are experts in financial analysis, investments and securities, portfolio management, pension management, investment banking among other related areas.

**Certified Credit Professionals (CCP)**  
Certified Credit Professionals are skilled and competent top level managers, practitioners and consultants in the rapidly developing field of credit management.

**Minimum entry requirements**  
Kenya Certificate of Secondary Education (KCSE) with an aggregate average of at least grade C+ (C plus).

### 2. Diploma Qualifications

**Accounting Technicians Diploma (ATD)**  
The Accounting Technicians Diploma qualification equips candidates with skills and competencies to work as middle level accountants providing technical support in accounting, auditing and taxation in both the public and private sectors.

**Diploma in Credit Management (DCM)**  
The Diploma in Credit Management graduates are competent and skilled to work as middle level credit managers and credit controllers in both financial and non-financial enterprises.

**Minimum entry requirements**  
Kenya Certificate of Secondary Education (KCSE) with an aggregate average of at least grade C- (C Minus).

### 3. Certificate Qualification

**Certificate in Accounting and Management Skills (CAMS)**  
The Certificate in Accounting and Management Skills (CAMS) is aimed at equipping candidates with fundamental accounting and management skills to provide essential services to small and medium size enterprises (SMEs), non-governmental organisations (NGOs), and both public and private sector entities.

**Minimum entry requirements**  
Kenya Certificate of Secondary Education (KCSE) examination with an aggregate average of at least grade D (D plain).

Applicants intending to take the May examination must be registered as students of kasneb and candidates for the examination not later than 15 March, while those intending to take the November examination must register as students of kasneb and candidates for the examination not later than 15 September. The application forms, qualifications brochure and other information may be obtained from the following sources:

- (i) Download from the kasneb website ([www.kasneb.or.ke](http://www.kasneb.or.ke)).
- (ii) Training institutions offering kasneb courses.
- (iii) Kenya National Library Service branches countrywide.
- (iv) kasneb Headquarters, Upper Hill, Nairobi.
- (v) kasneb Huduma Centres in GPO-Nairobi, Mombasa, Eldoret, Kisumu, Nyeri, Kisii and Nakuru.

Students can now apply for kasneb certificate and diploma courses through the Kenya Universities and Colleges Central Placement Service (KUCCPS). In addition, students can access online learning material available in various databases free of charge through a link on the kasneb website or through our e-library portal: [library.kasneb.or.ke](http://library.kasneb.or.ke)

**Elizabeth Glaser Pediatric AIDS Foundation**  
Fighting for an AIDS-free generation

For the past 20 years, the Elizabeth Glaser Pediatric AIDS Foundation (EGPAF) has been working with the government and communities in Kenya to provide services for prevention, care and treatment for HIV/AIDS and TB for children, adolescents and their families. While fighting for an AIDS-free generation, EGPAF embraces game-changing programs and innovations including providing lifelong and newly-formulated treatment options, addressing the parallel risks of HIV and pregnancy among adolescents, creating HIV responsive schools and health facilities to allow adolescents living with HIV adhere to treatment in a zero-stigma environment. Using innovations in diagnostics and treatment has expanded access to HIV and TB status knowledge among pediatric and adult populations. EGPAF uses creative and comprehensive health service delivery approaches that consider not just the health needs, but the livelihood and nutritional needs of the clients we aim to serve. Embedding nutrition and livelihood projects into HIV service delivery has resulted in greater adherence and retention to positive health behaviors and treatment. We routinely work to scale-up the capacity of health care workers and community-based organizations to provide comprehensive HIV and TB services. All this has shown us that an AIDS-free generation, is not just a dream: it can be a reality. Thanks in part to EGPAF's work in Kenya, we have prevented the transmission of HIV to nearly 20,000 babies and over 78,000 children living with HIV are receiving life-saving treatment. EGPAF is proud to be associated with the Beyond Zero mission which aligns with our goal of ensuring that all Kenyan mothers access quality care to prevent HIV transmission to their children and that their children are born healthy, remain healthy and are HIV free.

**NATIONAL IRRIGATION AUTHORITY**

At the forefront of providing and coordinating sustainable development and management of irrigation services in Kenya

Water to every irrigable acre

Lake Victoria North Water Works Development Agency (LVNWWDA) joins the country in supporting the Beyond Zero Initiative which is targeted at achieving zero new HIV infections, zero maternal and child deaths.

Lake Victoria North Water Works Development Agency (LVNWWDA) is one of the eight Water Works Development Agencies under the Ministry of Water, Sanitation and Irrigation established under the Water Act 2016 section 65(1), as part of the reforms in the water sector with the mandate of development of water and sanitation infrastructure projects within their respective areas of jurisdiction on behalf of the national government.

The Agency serves an estimated population of about 6 million people in the counties of Bungoma, Kakamega, Vihiga, Busia, Uasin Gishu, Trans-Nzoia and Nandi. Lake Victoria North Water Works Development Agency strives to ensure universal access to safe water and sanitation services in its jurisdiction area, as a big enabler to realization of this noble goal of the Beyond Zero Initiative.

NATIONAL YOUTH COUNCIL

# Greening Kenya Initiative

## CALL FOR PARTNERSHIP

National Youth Council (NYC) is a State Corporation in the Ministry of ICT, Innovation and Youth Affairs which came into being through the enactment of the NYC Act 2009 as the official voice of the youth. The mandate of the council is to advocate for youth opportunities to associate, be represented and participate in the Political, Social, Economic and other spheres of life.

In support of the Greening Kenya Initiative, Food security is a critical aspect especially during this time. NYC would like to partner with other state agencies, private entities and development partners by planting trees in Schools, Universities, Education Centers, Farmlands and Drylands to achieve more than 10% forest cover in Kenya by 2022.

To support this initiative, Call +254 (020) 2013920 or email [partnerships@nationalyouthcouncil.go.ke](mailto:partnerships@nationalyouthcouncil.go.ke)

[www.nationalyouthcouncil.go.ke](http://www.nationalyouthcouncil.go.ke) @nyc\_youthvoice @YouthCouncilKe @NYC\_YouthVoice

## Improving Access to Quality Healthcare Since 2015

UAP Old Mutual Foundation is the Social Responsibility arm for the UAP Old Mutual Group, which includes Faulu Microfinance Bank. We support the development agenda by positively impacting the communities in which we operate, with key focus on Healthcare, Environmental conservation and Financial Well-being.

### Key Healthcare initiatives

|  |  |   |   |
|--|--|---|---|
| <b>2015</b><br>Refurbishment of Kenyatta National Hospital Accident & Emergency Wing | <b>2016</b><br>Renovation of Al Sabbah Childrens' Hospital in Juba | <b>2018</b><br>Renovation of Uasin Gishu County Hospital maternity laboratory, waiting bay and comfort facilities | <b>2019</b><br>Installation of Queue Management System and patients' benches at Mama Lucy Kibaki Hospital |
|--|--|---|---|

### 2015 - 2020

Partnered with County Governments to provide medical camps. We have attended to over 5,000 members of the community in Uasin Gishu, Nakuru, Meru, Voi and Bungoma Counties.

The Foundation believes in partnerships for the attainment of the Sustainable Development Goals and are proud to associated with Beyond Zero Campaign.

To partner with us contact [foundation@uapoldmutual.com](mailto:foundation@uapoldmutual.com)
